

# Hello, Wayside team captains and players!

We're pleased to announce that Wayside has expanded its line of tennis racquet and product offerings and become an **authorized distributor** of Racquets and Products by **Babolat!**

Starting in mid-December, check out the new line of Babolats we will have available. Demo racquets will be featured at team practices and clinics through-out the months of December and January. If you're stopping in and would like to demo one of the new Babolat's, just see Steve or any of the tennis pros.

Wayside's is pleased to add Babolat to its existing tennis racquet and product offerings from **Prince** and **Head**.
